

Karen Gosset Lucktenberg

Karen Gosset Lucktenberg has many relatives with [Pacolet](#) connections. She is a retired registered nurse and a contributor to this website. A few months ago, we had an article on this website about a little girl born in [Pacolet](#), Janice K. Cook, that was thought to have the most living grandparents of any child in South Carolina. At the time, we did not know what had happened to little Janice. Karen did some research and found, unfortunately, that the little girl had only lived to be about six months old. She furnished us the obituary for Janice. You can see the article including the obituary at <http://pacoletmemories.com/ManyGrandparents.pdf>.

Recently, she was reading an article on this website about life in Pacolet Station from 1909 to 1915. The article is <http://pacoletmemories.com/1909story.pdf>. This remarkable story was written by Mr. Joseph M. McLaughlin from memory when he was living in Alaska in 1962. In his story, Mr. McLaughlin mentions several of Karen's relatives that lived in [Pacolet](#) at that time. This has inspired Karen to share pictures and information about her family with this website. See her article at [Gossetts and Littlejohns](#).
